“ Back in grade school I knew Mr. Kurdt from a basketball program I was playing in. He always took the time to be there mentoring his players regardless of how busy he was or what else was going on. Best coach I ever had who taught me more than basketball. I often think back on those days and Mr. Kurdt (as he was always known to me) was a good man.

“ When I think of 'Uncle Al' (to me), I mostly remember being a little girl, having fun, playing with my cousins and brother in the summertime on vacation. Although I didn't interact with him one-on-one often, the thing I remember most about him is his smile, which I'd describe as playful with an ever-so-slightly devilish quality.

A specific memory came back to me today. I couldn't have been more than 7. I'd fallen and hurt myself playing in the woods, and didn't know yet that I'd broken my arm, but I woke up at night, and wandered down some stairs, weepy, looking for an adult. Uncle Al was the first one I found. The caring concerned expression on his face stuck with me after all these years.

To Al's family, with many memories of that smile and moments of connection, my deepest sympathy for your loss ...

“ My sincere condolences to the Kurdt family. I did not have the privilege to know Albert however I do know his son Peter. From knowing Peter I can see that Albert was a great father and did things the right way. Rest in heavenly peace Mr. Kurdt you leave a family you can be proud of sir.

“ My brother Al was seven years older than me and a four-sport athlete at Kingston High School (football, basketball, track, softball). He spent 4 years in the Navy (having enlisted one week after HS graduation), 3 years at SUNY Brockport, 3 years living & working in Florida & Nevada, then completing his 4th year at SUNY Brockport. Mom had prayed he would complete that 4th year, meet a nice girl, and settle down. Viv, Mike, Don, and Pete are the answers to mom's prayer. He enjoyed natural science and memorized the names of all the US Presidents, their wives, and children. He was an exceptionally hard worker in a variety of unusual jobs -- in the fields picking fruit, at a 7-Up bottling plant, driving a septic tank pump truck, at a brick-making business moving bricks by hand from one hot kiln to another, in the circulation departments of 2 newspapers, USPS postal clerk, moving material from railroad cars to atomic testing grounds, science teacher, application engineer for a company that made commercial mixers. A week after retirement from Kodak, he was back at work in a seasonal part-time job for 15 years.
