“ I had many an occasion to coordinate projects with Jeff for the Patrol Division sections. He was always polite and willing to resolve any tech issues. My sincere sympathy to the Cheal family and a wish that his memory will remain with you always.

“ Sincere condolences to the Cheal family. Jeff was an excellent co-worker, but more importantly, a great person. He was always pleasant to be around, regardless of whatever health issues he was dealing with. He was extremely competent in his professional skills, and played a pivotal role in many of RPD's successes where information technology was a core component. Our thoughts and prayers are with Jeff and his family.

“ My wife Cathy and I share our condolences to all in the Cheal family. We worked together in Research and Evaluation many years ago. We recall being honored to attend the wedding in Dansville. Jeff was very helpful to me in R E during some difficult times in RPD history.

“ *What a shock. I worked with Jeff for many years when R&E and IT were together. Jeff is a quiet compassionate person. He worked hard and was very up to date with his work and the technology. I used to talk to him about his garden, something he and Vicky were proud of and Brenda and I were the receipt of the "generously given surplus" that came from the garden. I never know of his illnesses, he never talked about them or complained. Vicky please know that Brenda and I will have you and your family in our thoughts and prayers. We will all miss him.*

“ *I wanted to extend my condolences to Jeff's family. Jeff and I worked very closely together for several years when I was in Research and Evaluation Section and Special Criminal Investigations Section. Jeff's hard work and creativity were responsible for assisting not only the administration but also the officers and investigators to complete their jobs more effectively and efficiently. He was one of the unsung heroes of the department. He was also responsible for my own interests in learning about computers and technology. I am saddened by his passing at such an early age.*

“ *Jeff was a quiet and unassuming man, however very knowledgeable and willing to assist those in need at a moments notice. Jeff assisted us in the transition from the manual labor intensive world prior to the genesis of the computer age. Simply just a "good guy". So sorry for the loss on "this side", however, I am confident that GOD has better things in store for Jeff on the other side. GOD Bless you Jeff, and the entire Cheal Family.....*

“ My deepest sympathy to the Cheal family for the passing of Jeff. He was always a friendly guy who was willing to help when IT problems came up, and in my case, that was often. Always a gentleman.

“ I am very sad to learn of this news regarding Jeff. Jeff was a great guy and friend during my time on the 6th floor at RPD! I worked in the Professional Development Section, Media Unit, next hallway and office over from Jeff. Both of us shared a keen interest in computers and all things technical related. He had a great sense of humor and was often very helpful to me in my work and responsibilities at RPD.

To all his family and friends please accept my sincere condolences. May you all be blessed and comforted in this time of need and sorrow with Jeff's passing. I for one will never forget him. Best wishes to you all!!

“ I remember Jeff as an extremely bright and hard working member of the Information Systems Unit, back in the days when it was part of the Rochester Police Department's Research & Evaluation Section. He always tried to come up with solutions to problems to the benefit of the department, back when main frame computers were the norm, and the world was starting to transition to PCs. Saddened to hear of his passing at such a young age. Condolences and sympathies to the Cheal family.
