“ I am shocked and saddened to learn of her passing. I worked with Jodi on 81200 back in the day and when I left helped her get into VNS a couple of years later where I was and am currently working. She loved her job and most importantly her family. Embrace the good times and memories and know that she is no longer in pain. She will forever be in you hearts, always love you and will be looking down/after you.

“ I had the good fortune to work with Jodi as a BMT nurse and share laughs and tears together caring for our patients, their families and sharing our personal milestones too. I remember how excited she was meeting Jim who would become her beloved husband, by her side at the end. I always admired her warm, generous spirit and beautiful smile that lit up the room. Feeling grateful to have known such a beautiful soul. My thoughts and prayers are with her family and friends during this difficult time of loss.
