“ I spent this morning in my favorite tree stand thinking about one of my favorite people. Thanks for taking me deer hunting so many times when I was a young guy Uncle Kenny. Rest in peace, yours was a life well lived.

“ Was fortunate to meet this fine gentleman during a time when I needed good role models in my life - no longer a boy & trying to figure out what being a man meant. Sometimes through his words, but more often through his actions, Mr. Bush clearly demonstrated what being a good & decent man meant. With his small but frequent acts of kindness, patience, & humility he unknowingly provided subtle yet powerful lessons about what is important in life - family, faith, & friends. He set a tough standard to meet but I will keep trying. I feel sorrow for your loss but gratitude that you shared him with me for a time. I am a better man for having known this man.

“ *Ann and Kids,
I cherish the years spent growing up with Ken and his siblings. Ken was a wonderful friend with a disposition much like his dad. The harshest words I ever heard from him were (Gosh Darn!) My thoughts and prayers are with you.

“ *Kenny was like an older brother to me.
We worked together, hunted and played together. We probably dated some of the same women back in the late 50s.
We was a generous, hard working, fun loving guy and I'll ever forget him.
Best wishes to Ann and family.
We lost a great one.*

“ *Ann & Family,

I can't tell you how sorry I am to read of Ken's passing. He was a great guy and I will remember him fondly from our days at Kodak and especially our monthly retirees breakfasts. My deepest sympathy to you and your family for your loss....*
