“ Ken hired me at Thomson Reuters and was a great manager/leader. He was always there to help or answer questions. I had just randomly ran into him Camping this past summer we had a great time catching up and talking shop. It was like the old days. My most heart felt condolences to Renee and Lydia and the rest of Ken's family.

“ I was lucky to work with Ken on several projects at Wegmans. He was a truly talented Engineer. Very thoughtful and very passionate about every piece of work he was doing. He came up with many wonderful and practical ideas that will live for a long time and will make people's lives easier. My deepest condolences to all of you. R.I.P

“ My deepest condolences to you and your family. Many prayers of healing. Remember to cherish those special memories. Ken and I worked on an agile team at Wegmans for the last 9 months and he was such an asset to our group. He always had us laughing and also thinking about what if this or that to make our systems so much better. He was the absolute best at his job. He had an infectious smile that lite up the room, even when things got touchy on the project, he brought out the best in all of us on the team. I am so blessed to have known him and worked with him.
