“ We just returned from Florida and just now learned of Mark's passing. We are stunned and so very sad. He was such a good friend and inspiration...he valiantly fought his battle with cancer and we were hoping that he would have years of a good life ahead of him! We will always remember him as a gentle soul and always willing to help anyone. We can see the apartment complex where he lived from our window. I hope one day i can look over there without tears welling in my eyes. May you rest in peace dear Mark as you left us way too early. Our support and love goes out to all those you have touched with your kindness, family and friends. We love you dearly Mark. Dottie and Bruce

“ My deepest sympathy to the Macartney family. I have fond memories of Mark. So many years ago Mark and I would bump into each other when we were out at various places. I always enjoyed seeing him and talking with him.
