“ Pat was my sister in law and was in my wedding to Bill Wallace. This is such a shock. I call every 4th of July her birthday. I am in a wheelchair in a senior home. My children will be surprised I will. Have to let them know.

“ Patty was a cherished family member. When I was younger, she always joined us for Christmas Eve, and those memories are some of the very best from my childhood. Patty also helped encourage my sense of independence and love for the outdoors. I have such great recollections of fishing with her at Silver Lake and also of rowing around the lake in a little red boat and swimming at the sandbar there.
